## Ticking Glock!

Welcome to the Underground,  
with your Partner you are bound.  
You two have to get along,  
the whole week long!

Reapers Mail says "fail and face erasure",  
that's what we don't want that's for sure!  
So we run through the Reapers Game,  
while the winged devils us blame.

Welcome here in the area Shibuya,  
Not wanted beeing figure of game, ya?  
Dashing in worlds biggest shopping center,  
figures in Reapers Game we nerver wanted to enter.

On our hand ticks the damned clock,  
it says "go to the Hachiko rock!"  
And even if we get a punch,  
we fight for a 2nd chance!
