Kapitel 30: Will You?

I'm watching alone
Dreaming of happiness left behind
Feeling sad in mind

I'm feeling so alone
Can't find the way home
The way to you

I hear your voice whispering
Calling out in sweet words
My heart, it hurts

Though pleading on my love
My confusion never stops
But my soul still hopes

The day breaks
My mind aches
Wishing you were here

Looking in the mirror
I'm looking into empty eyes
But behind the tears
There's a hidden secret, a wish
A wish for love
That should have lasted years

Please forgive yourself
I will wait, how long it may take
And then

Will you marry me?
